

Object: **COMPANY PROFILE**

Turate: April 2011

*D*ear Sirs,

My name is Massimo Galli, I would like to introduce our company, we work in the field of machinery and processes for wire industries with a quality-oriented view of things because, we think, which is essential for obtaining durable products to protect your investments.

Our experience dates back to the dawn, when the drawing machines, as we know them now, were only on the paper, then we want to share our knowledge and our experience with our new company, so that we can offer simple products at superior quality, we can design and build from a single wire drawing machines, wet or dry, to complete systems for the processing and treatment of the wire, we can offer you a complete know-how for build your business.

Our new brand is BEST MACHINERY, what we propose is very simple: last technology of quality machines and a bespoke service.

Our philosophy is:

"Your work should only be to produce, our work do not make you stop"

If you share our ideas and believes that we can somehow do something for your company, contact us here at the bottom you will find my personal phone number, can call me and ask me in person what you needs.

The ideas are not lacking.
